## ***President's Message***

Greetings -

By the time you will get this it will be June, the Memorial Day Holiday will be finished and hopefully many of you enjoyed the weekend with cameras in hand as it signals the start of summer fun.

One of my former students is an avid photographer who has four of the cutest little kids you'd ever want to see and uses a 35 mm DSLR to capture some remarkable images and posts many on facebook. I recently wrote her a note telling her how much I appreciated her images and what a treasure they were for a lifetime but then asked where they were backed up. Her response was "nowhere." I encouraged her to go purchase a little hard drive and copy her images for back up immediately because to lose these would truly be losing an important part of their lives. Purchasing a little hard drive for a loved one as a present might preserve photos of the special people in your lives. I see the same thing with my college students who take a photography course from me when I ask "where are your backups?" The last few years only one of the 18 enrolled has had a backup in place and most photos are on cell phones. As an aside, one morning last fall I had the plumber here first thing in the morning who finished my job and then was headed for the downtown bars in Iowa City. When I asked him about the bars: he has a contract to remove cell phones from toilets every day of the week! (who knew?) So if your images or those of someone you love aren't backed up - do it now! As I've said before the only thing about technology is that it is guaranteed to fail at some point.

## **Image quality**

Our club judged digital pictorial this month and I just have to reflect on the quality of the images submitted. Although my time as a member of N4C has been a hiccup compared to some of you reading this I am truly amazed at the overall quality of the images and how much it has changed even in the last few years. It used to be a photograph of a bird with a good depth of field had a great chance of winning but now it's almost as though the bird should be "doing the funky chicken" or some such thing to be eligible to win. Many of the N4C clubs have spent time with their new members helping them understand what makes a good image, practice and how to try and achieve the results other successful club members have in our various contests through critique nights of new member images.

## **Filters**

In this digital age we are able to crop and make all sorts of adjustments to an image, some good and some not so good, to be honest, and it's easy to get carried away with some of the filters available to us. Speaking of filters Google bought the company that makes Nik Filters (my personal favorites) and are now giving them away for free! (<https://www.google.com/nikcollection/>) I would encourage anyone to download them and use them as they work with Adobe Lightroom, Adobe Photoshop Elements and Adobe Photoshop. Know that when I started using these it was \$450. for the whole batch and now they're **free!** Also know that Google bought the company for some of the *(Continued.....)*

Presidents Message Continued from Page 1

mobile phone applications and currently have no intention of revising the Nik filters but I'm sure someone else will come up with something for us.

Another set of filters many of us like are the Topaz filters <https://www.topazlabs.com/> I'm very much a rookie with these filters but have plans that this summer I will learn to use them. For those of you who have looked at the creative category there is one that kind of looks like electricity on an image that looks like fun.

Although the Nik filters have a filter for noise (Define 2) that comes with the bundle I personally prefer another filter called Imagenomic-> Noiseware.

### **Board of Directors Motions:**

Doug Conrad, current president of Sioux City Camera Club was unanimously approved to fill our vacant Board Position for Director #4 and came with the unanimous support of the Sioux City Club. Thank you Doug!

At the Board of Directors meeting at Springbrook a motion to end 2 x 2 slide contests after May 2017 was passed.

The future of Creative Prints which currently share every-other-month category with 2x 2 open slides was discussed. (Gerald Bonsack will be resigning as Chairman of Creative Prints as of May 2017.) Some of the discussion focused on whether or not to include what we are now calling Creative Prints into the Pictorial Category. Mark Gromko and Bob Lahti both agreed to bring their ideas to the Board meeting in September at Fargo.

Photo Travel - we need to remember to have the place where the photo was taken as a part of the title. Many have been forgetting this (including me). If the location is in the US, list the state in the title; if foreign list the country in the title. This rule has been in place since October 2013.

If you have comments on any of the Board actions please feel free to contact me or any board member.

### **Fargo Convention - September 30th and October 1st**

Don't forget to make your plans for the Fargo annual convention. <http://shootthered.weebly.com/> It's called "Shoot the Red" and will be the 60th Anniversary of N4C! Please visit this site, register to attend, look at the videos and plan to come "play with us." It's clear Paul Hogan and the Fargo-Moorhead club have really put together a great program as well as many opportunities for field trips. Thanks Fargo-Moorhead in advance!.

So I'm wishing all of you the best that summer has to offer in all aspects of your life!

Jo Eland, President N4C

Not teaching this summer - playing with my camera instead!

# *N4C Convention Info!!!*

**Editors Note: A special “Shoot the Red” Convention Section is included in this Bulletin.**

Greetings, Fellow Photo Enthusiasts!

This year marks a great milestone in N4C History. It's the 60<sup>th</sup> Annual Convention. I would like to invite you to join us for Shoot The Red held in Fargo North Dakota. And Yes, we do talk funny, and Yes it is colder than a well diggers butt here half the year, but not this year. We have personally contacted Mother Nature and requested nice fall weather for the convention. The Convention technically starts on Friday September 30<sup>th</sup> and continues through Saturday Night October 1<sup>st</sup>. For those of you that come early We have lined up a great treat for you. We have arranged a tour of a Professional Print House located here in Fargo. They will show us how our great digital images become paper, canvas, metal, etc.

For those of you staying late, I personally will lead a morning field trip on Sunday to some of my favorite outdoor locations then finish up with some breakfast and say goodbye to those who are travelling.

Of course we wouldn't have a successful convention with our an amazing line up of speakers and educators. Friday Night's Keynote speaker is Jamie Konarski Davidson from North Carolina who's battle with breast cancer has renewed her passion for photography. As an award winning freelancer Jamie specializes in nature, Black and White, IR, and creative Art. You can learn more about Jamie at [www.newlifephotos.com](http://www.newlifephotos.com). Jamie will be leading our Nature field trip on Saturday Morning.

Saturday we would like to welcome to our banquet and educational seminars naturalist Stan Tekiela from [www.naturesmart.com](http://www.naturesmart.com). Stan started his career as an EMT but his passion turned to photography. For the last 25 years, Stan has published many guide books including the highly popular state specific bird, flowers and trees. For example if you dig through your book collection and see a small book called Birds of Minnesota, you have seen one of over 130 guide books Stan has published. He spends many hours doing radio shows and newspaper columns throughout the Midwest.

Also joining us on our whirlwind journey of photography and leading our Friday Field trip will be Jeff Allen from Tamron's technical Service. Photography has been Jeff Allen's passion for over 30 years. As a pro he has worked in the wedding, portrait, nature, news and sports photography genres as well as taught thousands of photographers how to create better images. He has facilitated workshops and seminars throughout the country for all levels of photographers. Jeff has also worked as a manufacturer's rep and a retail sales consultant. Jeff is a member of Tamron's Technical Team. As a National Technical Representative, he travels the country extensively, and speaks on behalf of Tamron dozens of times a year helping people to choose equipment that's right for them.

To put the icing on the cake, The hardworking clan from the Fargo Moorhead Camera Club Convention Committee have procured several Thousand dollars' worth of door prizes from companies all over the US such as Red River Paper, Black Rapid, Epson, Cotton Carrier, VU Filters, and many software titles, and more. Also a well-stocked vendors room will be available for your wallets pleasure.

The Hotels in the area have limited availability due to it being the 5 time defending NCAA Football Champions, North Dakota State Universities Homecoming and Football Game. We have rooms set up at the Baymont Inn and Suites in Fargo for \$95/night under N4C convention. We were able to get only 50 rooms initially and will maybe be able to grab a few more if those fill up early. You can call the front desk of the Baymont Inn (701) 235-3333 . or 1-800-433-3235. As of June 1<sup>st</sup> there are ample rooms still available but will fill fast. Hope to See everyone there!

If anyone has any questions regarding the convention feel free to contact me at [fmcameraclub@gmail.com](mailto:fmcameraclub@gmail.com) or via our award winning website at [www.fmcameraclub.org](http://www.fmcameraclub.org). The convention has its own website as well [www.shootthered.weebly.com](http://www.shootthered.weebly.com)

*Not for profit WOLF PUPPY photo workshop*

July 9 and 10, just north of St. Paul MN. 100% of the tuition goes to the Wildlife Science Center, which is home to the wolves. Photographers will have the opportunity to photograph and interact with 15 wolf puppies in a large enclosure that has been landscaped specifically for photography. It is a rare year that the Center has puppies, and this is only the second time they are opening up their doors to photography.

Emphasis will be on maximizing photographic opportunities.

The Wildlife Science Center has been forced to move off DNR land and is in desperate need of funds to build new facilities on nearby donated land.

More info available at the website: [www.wildlifesciencecenter.org](http://www.wildlifesciencecenter.org)

## N4C Service Award

The service award is presented to a candidate for his or her outstanding contribution of service to N4C along with service to their own camera club and photographic service to their local community.

Any person who is a member of a camera club in good standing with the Council, may act as a proposer for a candidate(s). The candidate must also be a member of a club in good standing with the Council.

For more information go to Section D-1 Awards and Recognition Service Award Requirements in the N4C Directory.

Applications are available from the chair of the Service Awards Committee

For more information contact;

# Best of the N4C Winners Roundup for the Fall Fargo Convention

First, Second, Third, and Honorable Mention winners in all categories of the 2015-16 monthly contests are eligible to be judged in the Annual Best of N4C Contest. Merit award winners are NOT eligible.

Fargo-Moorhead Camera Club is hosting the N4C Convention and has established the **deadline for Prints and 2x2 Slides**.

Entries must be received by 5:00 PM Monday, July 11, 2016 if hand delivered, or **postmarked not later than July 6, 2016 if mailed**.

Eligible **DIGITAL entries** have been saved each month and **do NOT need to be sent.. Panorama prints are not to be sent**.

**IMPORTANT: All prints MUST BE MOUNTED** (on a stiff backing) for this annual contest. For loose prints they must be mounted on a stiff backing for year end display at the convention. Secure the loose print to the stiff backing by either double sided tape-across the top edge of the print or hinge them along the top edge so the original print tag can be seen.

The winning prints and 2x2 slides entries (NO DIGITAL ones and NO PANORAMA PRINTS) are to be mailed to:

Fargo-Moorhead Camera Club

Contact Diane Darnielle at email address [dldarnie@aol.com](mailto:dldarnie@aol.com), 515-276-0250 if someone in your club has not seen a list by June 15 and think you should have eligible entries.

All prints received for this annual contest will be displayed in a convention salon and slides will be projected for those attending the convention.

Awards for the Best of the Best will be announced and presented at the N4C Convention banquet on Saturday, October 1st along with Photographer of the Year, Clubs of the Year, and other awards.

Thanks to all the entrants, clubs, judges, and contest chairs. We will judge about 6,400 photos this year!

**Jamie Konarski Davidson**  
[www.newlifephotos.com](http://www.newlifephotos.com)

Jamie Konarski Davidson is an award-winning freelance outdoor & nature photographer with a passion for capturing and sharing the intimate moments and beauty of the natural world on its own and as it blends with the "rest of the world." Her images range from macro and abstracts to intimate, grand and rural landscapes in color and infrared. She connects with all things "old" and finds a special beauty in decay and fading cultural lifestyles that resonate a life of hard work. She focuses on the intimate details that can only be seen when the hurried pace of life is slowed.

**Stan Tekiela**
