

North Central Camera Club Council

N4C January 2024 News Bulletin

Volume 60 No. 59 www.N4C.us

Happy New Year,

Well, we made it to 2024. I trust everyone had a fantastic holiday season. As we settle into the rest of the long cold (well not really this year) winter I must reflect on what 2023 provided us. N4C brought back the Spring Mini Convention currently located in SE Iowa in a very nice little bible camp. They provided us with some fantastic food, reasonable prices, and clean sleeping rooms.

We also celebrated another fantastic convention put on by the fine folks in Dubuque IA. I know that lovely "C" word is still on everyone's minds, but it seems to be turning into the general flu, every year we get another version. Well, I guess that is how it goes.

Several of us from multiple northern tier clubs are planning for the 5th Annual Big Freeze event along the North Shores of Lake Superior. Starting on the Canadian Border and ending 5 days later in Duluth. Last year we had balmy temps of around -35 on the first day trying to shoot sunrise and a lovely 40mph wind in the face. That was the shortest sunrise shoot on record, but the day cleared up and the fun began regardless of the temps.

The trip even came with 2 former executive Chef's turned photographers. One thing for sure we didn't go hungry on the trip. Members from Multiple Camera Clubs were in attendance and most of the participants have one thing in common, John Gregor and his Cold Snap photography workshops. Though John refuses to accept any temp colder than 88 degrees anymore he is still there in spirit.

Things to Look Forward to in 2024, start with the Spring Mini Convention in Indianola IA, 2nd half of the year salons, and The Fall Convention near Sioux City on the Nebraska side of the river. I heard there is some decent fishing in the area, so I may have to bring along my fly rod and see what kind of trouble I can find. Looking forward to 2024. So, let's all raise a glass of Ed Siems Homemade wine and say Happy New Year.

N4C Digital (& Print) Contacts,

If I should contact someone different, please let me know.

IF YOUR CLUB ENTERS PRINTS, SEE BELOW FOR WHERE TO SEND ENTRIES.

FOR DIGITAL ENTRIES, they must be received by 5:00 pm January 15, however make every effort to send them by the 13th to allow time for confirmation.

- Judging may begin on the 16th - make sure you receive confirmation that entries were received.

The cutoff time will be 5:00pm on the 15th giving the judging chair time to organize them for judging starting on the 16th. The point is....don't wait until the last minute. There have been problems with occasionally missing entries when they are not received until late in the night on the 15th.

The 2023-2024 rules are on the N4C web at <http://n4c.us/competition.htm> by clicking the blue "N4C Contest Rules" button. Copy attached. Refer to those until the new N4C Handbook is available.

The N4C Directory is available by email from Carl Hardy and his email is torchenterprises72@gmail.com The Handbook contains the contest rules and other general N4C Info. The Directory contains the list of judging clubs for all the contests along with contact info for all the affiliated clubs. The Handbook is available for download from the web <http://n4c.us/Supplies-Forms.htm> page.

There are six Digital Image Contests each month - (see the definitions of each category in the Rules):

- Altered Reality (DA)
- Black & White (DB)
- Journalism (DJ)
- Nature (DN)
- Pictorial (DP)
- Travel (DT)

Maximum of 8 entries per club per contest, not more than one from a member in each contest

Do not enter versions of the same image in multiple contests. For example, do not enter both a color and B&W version in the same month. Likewise don't enter both Digital & print versions. If both win, one will be withdrawn. The rule is: "Any entry which receives a 1st, 2nd, 3rd, or HM award in a monthly competition may not be re-entered in the same year or later years, in the same or any other category, regardless of variations or changes made."

Please check your entries before sending them on for judging. Look for three things:

1. File size 750KB max. (A requirement this year)
2. **Longest side 1,920 pixels max.**
3. File name should look like this example: 01,DE028,DP,Beautiful Sunset.jpg

Content of the Email Message when you send the entries:

- a. Subject Line of the Email should say "N4C Contest Entries from _(your)_ Camera Club".
- b. Specify which monthly contest and how many images are attached to the Email.
- c. List the Member Numbers and corresponding member names to ensure that the Judging Club has that information.
- d. Give the Club Name and your full name.
- e. Attach the image files

ASK THE JUDGING CLUB IF YOU DO NOT GET A RECEIVED CONFIRMATION BACK FROM THEM

Please send me updated member lists when you have added Member Numbers. I'm glad to see new members participating in N4C contests. Naturally I need to get them registered so they are properly identified for the judging clubs. For new members, that really should be done a month in advance of entering.

(Entries must be received by 5:00 pm January 15, however **make every effort to send them by the 13th to allow time for confirmation.**

- Judging may begin on the 16th - make sure you receive confirmation that entries were received)
If you have any trouble reaching these judging clubs, let Ken Johnson know as soon as possible.

January Digital Image Judging Clubs:

=====

ALTERED REALITY Digital "DA" (Digital Altered Reality) is the contest ID that goes after the Member Number

Fargo-Moorhead Camera Club
Bruce Bernstein
1505 - 8th St S
Fargo, ND 58103
701-235-5945
brucepamfargo@yahoo.com

BLACK & WHITE Digital "DB" (Digital B&W) is the contest ID that goes after the Member Number:

Iowa City Camera Club
Alyssa Azhari
2202 14th St.
Coralville, IA 52241
319-512-8096
alyssa.azhari@gmail.com

JOURNALISM Digital "DJ" (Digital Journalism) is the contest ID that goes after the Member Number:

Shutterbug Camera Club
John F. Larson, Jr.
609 Stoneledge Rd.
State College, PA 16803
319-671-1568
jflarson114@gmail.com

NATURE Digital "DN" (Digital Nature) is the contest ID that goes after the Member Number:

Omaha Camera Club
Nikki McDonald
802 E. Cary St.
Papillion, NE 68046
402-592-9555
OmahaN4C@cox.net

PICTORIAL Digital "DP" (Digital Pictorial) is the contest ID that goes after the Member Number:

Duluth-Superior Club
Lucy Kragness
505 N. 4th Ave. W.
Duluth, MN 55806
218-348-0475
lucykragness@gmail.com

TRAVEL Digital "DT" (Digital Travel) is the contest ID that goes after the Member Number:

Be sure to include the STATE or COUNTRY of the image in the title.

Topeka Camera Club
Greg Hogleund
2230 SW Kingsrow Road
Topeka, KS 66614
785-633-2384
greg.hogleund@sbcglobal.net

=====

SEND NEW MEMBER NUMBERS AND NAMES TO KEN JOHNSON

N4C Supplies & Forms - on the web.

Entry forms, Reports and more. Make your job easier - Check it out.

<http://n4c.us/Supplies-Forms.htm>

A club will normally have up to 8 entries for a contest. A typical image file name list might look like:

(USE YOUR CLUB NAME AND MEMBER NUMBER INSTEAD OF DA044 - zero "0" 44 not a letter "O")

(USE DA, DB, DJ, DN, DP, or DT for the Contest Code - This example is for the Digital Nature Contest)

(Notice commas separating the data in the file names) 01,DA044,DN,Deer.jpg

03,DA022,DN,Grand Arch.jpg

04,DA033,DN,Teton Reflection.jpg

05,DA037,DN,White Water.jpg

06,DA002,DN,Shadows.jpg

07,DA025,DN,Horsetail Falls.jpg

08,DA018,DN,Soaring Eagle.jpg

Members should submit entries with filenames similar to the above except for the sequence numbers. The club N4C Rep will rename the files to include the sequence numbers. The club N4C Rep may want to keep things simple for the club members and handle ALL the file naming - how this is done is left to the club. The sequence numbers will determine the sequencing of the image in the judging line-up. All the contest entries will be sorted in alpha-numeric sequence by filename so this will mix up club entries for judging. The 01's from all the clubs will be judged first and the 08's at the end.

Encourage your members to explore the N4C website where they will find a lot of photography to study, and photography links with an unlimited number of tutorials and educational videos to learn from. <http://n4c.us/>

PRINT ENTRIES - JUDGING CLUBS FOR January

Print contest rules are in the attached N4C Contest Rules.

Each of the following three clubs are judging two of the monthly contests:
Entries must be received by these clubs by January 15.

Send both Nature Prints and Black & White Prints to:

Print Nature & Print B&W
Kuntemeier Camera Club
JoAnn Kuntemeier
536 Cedar Court
Taylors Falls, MN 55084
651-465-6827
joakun@midco.net

Send both Pictorial Color Prints and Altered Reality Prints to:

Minot Camera Club
Tim Zeltinger
C/O Cheryl Lesmeister
1608 11th St SW.
Minot, ND 58701
tzbugman@gmail.com

Send both Travel Prints and Journalism Prints to:

Be sure to include the STATE or COUNTRY of the image in the title of TRAVEL PRINTS
Topeka Camera Club
Greg Hogleund
220 SW Kingsrow Road
Topeka, KS. 66614
785-633-2384
greg.hogleund@sbcglobal.net

Ken Johnson web@n4c.us,

Please pass it on to others in your club.

April 26 - 28, 2024!

Wesley Woods, Indianola, IA 50125

The Founders Award selection committee is accepting nominations for the 2024 N4C Founders Award.

Please read the nominating information found on page E10 in the Handbook, especially the activities that are considered by the committee. Once you have completed your nomination,

e-mail it to Bob Lahti (rjlahti@charter.net), by June 31th.

**NORTH CENTRAL CAMERA CLUB COUNCIL
FOUNDER'S AWARD NOMINATION**

Name of Candidate _____

Address _____

Camera Club Affiliation _____

Length of Club Membership _____

Length of Club Membership in Council _____

Occupation of Candidate _____

Name of Nominator _____

Candidate is aware of nomination? Yes No

Does Candidate plan to attend the forthcoming N4C Convention? Yes No

If Award is granted, should candidate be advised by letter of the award prior to the Award Ceremony?

Yes No

Please list separately the various photographic activities of the candidate including such things as camera club offices, N4C offices, PSA offices, community services, and any other such activities or accomplishments.

Nominator's Statement: State here or on a separate sheet of paper reasons and statements supporting this application.

Prepare in duplicate Signature of Nominator _____ Date _____

Mail to the Chairperson of the Founders Award Committee

How to Take Macro Photography Snowflakes

By: Rebecca DeWitt Reprinted by permission of the Black Hills Photography Club

I learned this technique from our November photo club guest speaker Evan Ludas. I have tried countless times to take a great macro shot of a snowflake and every time I have been disappointed with the results. So, a huge thank you to Evan for his tips!

For this exercise, I used my Canon R with the Tokina AT-X 100mm Macro Lens 2.8. If you do not have a macro lens you could also try shooting with extension tubes - a much cheaper option than purchasing a dedicated macro lens.

Step 1.

Drill an 1/8" hole in the bottom of a 5-gallon bucket. I ended up drilling multiple holes of different sizes, but I found what worked best was to drill it on the side of the bucket because my tripod could not get over the bucket enough to use the center hole I had started with.

Step 2.

Place a bright flashlight underneath the bucket. The flashlight does not need to shine directly below your hole.

Step 3

Set up your camera on a tripod that can point straight down over the glass. In order to get a well focused snowflake, it is important to have the camera straight above and not angled at all. Angling will cause only one part of your snowflake to be in focus. (Unless you plan to take multiple photos and focus stack them.) I also had to make the bucket a little bit taller so I placed it, and the flashlight, on top of a few bricks. Line up your camera over the hole.

Step 4.

Use a small sheet of glass to catch some falling snowflakes. Place the glass over the hole and move the glass around until you have a snowflake over the open hole. This allows you to not have to move your camera at all once it is focused over the hole in the bucket, instead just slide the glass around to find different snowflakes.

Step 5.

Turn on the two second timer on your camera so that when you click the shutter button you don't cause bad camera shake. My

Camera settings were set to:

ISO 1000,

aperture f/10

shutter speed 1/50.

You may have to adjust your settings differently, but this is what worked for me.

Step 6.

I use Adobe Lightroom to edit my photos. For my finished snowflake photos I also ended up using Topaz Sharpen AI to help bring back some of the sharpness after having to crop my image so much.
